

SUPERB HOOK

TRADITIONAL AND TRUSTED BY MILLIONS

This classic and timeless cuff has been used for decades by doctors around the world. Thanks to its robust design - it is made of a durable cover with removable inflation bladder - the hook cuff has an exceptionally long service life. The clearly indicated marking of the brachial artery enables flawless application of the cuff. While measuring blood pressure, the combination of materials used ensures uniform pressure distribution - a key factor in determining the most precise readings. Like all ERKA. cuffs from the GREEN CUFF Superb product family, the hook cuff is also biocompatible, particularly skin-friendly and easy to disinfect.
