SUPERB HOME

SIMPLY PRACTICAL AND PRECISE

Self-monitoring of blood pressure is an important part of treatment for those with hypertension. But the following also applies: only the selection of the proper cuff size and the correct application of the blood pressure cuff results in meaningful readings. The ERKA. GREEN CUFF Superb home cuff makes error-free blood pressure measurement easy for you: each cuff has clear positioning instructions and clearly recognisable size labels. The ERKA. GREEN CUFF Superb cuffs consist of a cover and a removable inflation bladder. This construction is optimal in blood pressure measurement because of even pressure distribution and the resulting highly precise values.
