

SMART RAPID ONE PIECE

EFFICIENT AND ROBUST

Effectiveness - with this in mind, we have developed the GREEN CUFF Smart rapid cuff one piece. Made of sturdy and biocompatible material, it is characterised by its exceptional longevity. The cuff - consisting of a cover with integrated inflation bladder - can be disinfected easily and guarantees optimal hygiene values. The ideal companion in everyday medicine. Size selection made easy: all ERKA. GREEN CUFF Smart cuffs are equipped with a coloured tube according to their size. The correlation of the cuff size to the tube colour is internationally standardised, thus confusion is almost impossible. The clearly indicated marking of the brachial artery enables flawless application of the cuff. While measuring blood pressure, the combination of materials used ensures uniform pressure distribution - a key factor in determining the most precise readings.
